About OMNIYON

OMNIYON is a media and control interface designed for luxury lifestyle environments. It sits between the technology of any Audio Visual automation system and the end user, providing the easiest imaginable way to view content from any number of sources.

Built on its own platform, and using the MediaMatch integrating software, it is fully configurable by the client, making it optimal, reliable, responsive, serviceable, updateable, stable and easy to use.

The interface and app is unique in its ability to deliver a much simplified and highly refined user experience across multiple properties and geographies. It takes luxury media and control to all new levels of ease and effectiveness.

OMNIYON

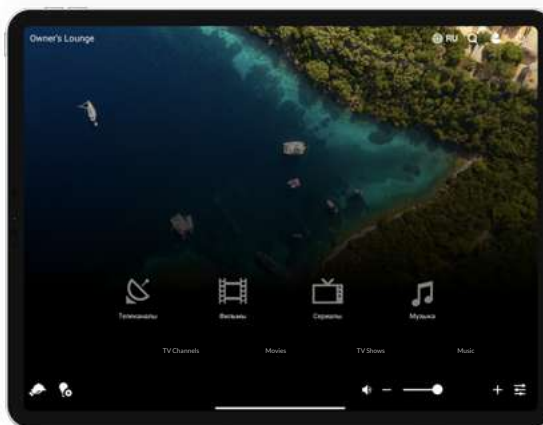

INTUITIVE | COMPLETE | RELIABLE

Home Screen

The OMNIYON home screen combines all Media & Control.
